Three Plans, One Platform

Choose the tier that fits your organization — from email-only to full enterprise.

Email Only

Core business email with essential tools for communication and storage.

Standard

Collaborative workspace with Drive, Email, Docs suite — secure and AI-assisted.

Enterprise

Advanced productivity features including video calls, voice bots, and premium admin controls.

Custom plans available — mix Business Email-only and Workspace tools to optimize costs for your team size and industry.

Email Core, Intelligence & Automation

Core Email

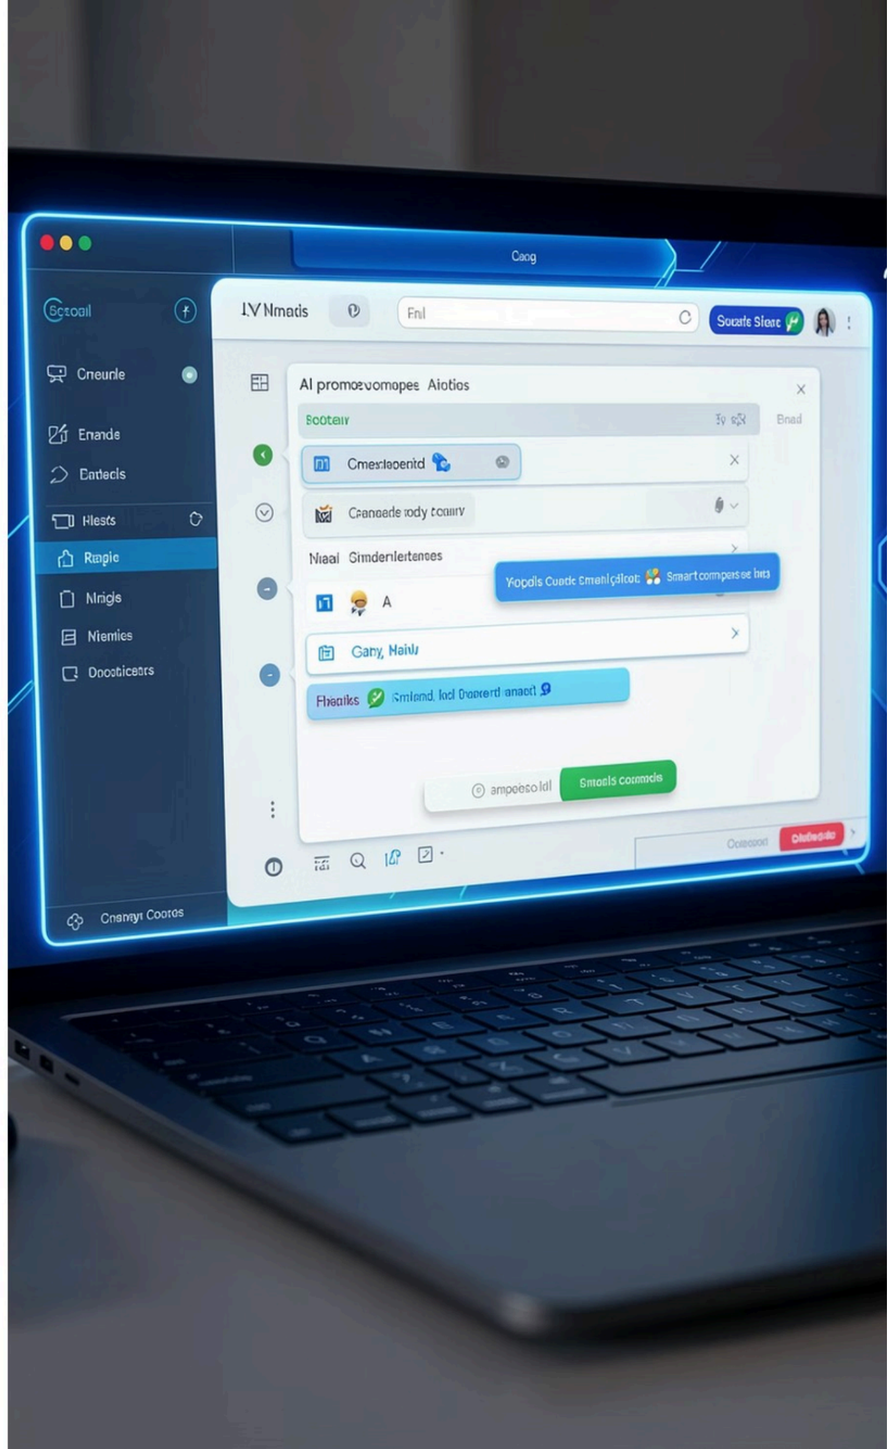
RFC 5322-compliant system with SMTP, IMAP, POP3, MAPI support. Conversation threading, rich text editor, drag-and-drop attachments, templates, undo send, and smart search.

AI-Powered

Smart Compose, Smart Reply, Auto Drafting, Write in Your Own Tone, Smart Send time optimization, and Auto-Unsubscribe with Memory — **Sarv-exclusive features.**

Automation

Email follow-ups, reminders, email-to-task conversion, bulk actions, shared mailboxes, read status tracking, and priority views.



Collaboration & Messaging

Co-Creation

Real-time co-drafting on emails, shared labels, shared emails, and priority mentions.

Chat & Channels

1:1 direct messaging, group conversations, persistent channels, threaded replies, @mentions, emoji reactions, pinned messages, and guest access for external users.

Team Management

Team creation, channel management, member invites, Q&A mode, and presence indicators.

Calendar, Contacts & Video Conferencing

Calendar & Scheduling

Smart scheduling, appointment slots, resource booking, find-a-time, RSVP management, focus time, and meeting notes integration.

Contacts Management

Bulk import/export, merge duplicates, contact labels, groups, directory contacts, and favorite contacts.

Video Conferencing

HD calls, screen sharing, recording, breakout rooms, polls, live captions, background effects, noise cancellation, and meeting transcripts.

File Storage & Drive

Enterprise-Grade Storage

Per-user storage quotas with file upload/download, folder management, and granular sharing permissions (View, Edit, Comment).

- Shared Drives (team folders)
- Advanced OCR search & filters
- Version history & offline access
- Drive for Desktop & activity dashboard
- Single-instance storage (de-duplication)

Admin Controls & Security

Access & Identity

SSO, 2FA/MFA, Active Directory sync, RBAC, secure LDAP, and session management.

User Management

Centralized admin console, user provisioning, import/export, password policies, device management, and audit logs.

Data Protection

DLP, Vault (eDiscovery & retention), context-aware access, advanced phishing protection, and API access controls.

Monitoring

Centralized system monitoring dashboard, predefined alert policies, real-time notifications, and security reporting.

Sarv Workspace vs Others

Sarv Workspace delivers features that competitors don't — including co-drafting on emails and writing in your own tone with AI.

Frequently Asked Questions

1 **What's included in each plan?**

Email-only covers core tools; Standard adds Drive, Email, Docs; Enterprise includes video calls and voice bots.

2 **Can I customize or upgrade later?**

Yes — flexible plans scale with your business. Upgrade anytime from your account or via sales.

3 **What support is included?**

All plans include 24×7 email and chat support. Premium plans add phone support and dedicated account management.

4 **Is my data safe?**

Enterprise-grade encryption, onshore/offshore reliability, and 24×7 network engineering ensure your data stays protected.

Accepted payments: Visa, MasterCard, American Express, PayPal, and NEFT bank transfers for annual subscriptions.
